

Anti-COVID Air
Purification Systems
Reducing the risk
of infection in bars,
discos and clubs

Keep your business running

Anti-viral filtration for your venue

Individually-tested H14 HEPA filters¹ capture more than **99.995%** of viruses, bacteria & other micro-organisms

High performance air flow rate for efficient air exchange

Low power consumption through optimized system and filter media design

Quiet operation, and discreet, neutral design for unobtrusive protection

Optional **UV-C stage** and **activated carbon prefilter** for odors, NO₂ and VOCs

The experts for your unique challenge

From HEPA upgrades to your HVAC system, air purification systems or real-time indoor air monitoring devices, MANN+HUMMEL is your development partner of choice for healthy air quality.

Fewer than 1 in 5 consumers felt comfortable visiting a bar or club due to COVID-19.²

of hospitality operators felt their business wouldn't survive another three months of lockdown.³

Customer fears over COVID-19 can be a genuine threat to your business. Or, they can be a real opportunity. **Provide virus-free air and make it a night to remember for the right reasons.**

Bars, discos and clubs are designed to bring people together – not social distancing. As your guests consume alcohol, shout to make themselves heard and dance until their feet hurt, your venue becomes a prime candidate for an outbreak of COVID-19.

And being at the center of an outbreak could be potentially devastating for your business – with the effects lasting long after the coronavirus pandemic has passed.

But there are solutions that can help you avoid empty tables and dancefloors this winter – and even give you an edge on the competition.

Reduce the risk of COVID-19 circulating within your venue with an effective air cleaning system. Virus-free air will not only show you care for your guests, but also protect your employees and ultimately reduce the risk to your business.

Learn more about our anti-COVID air purification systems

OurAir SQ 2500 & TK 850

Anti-viral purified air, anywhere

OurAir SQ 2500

For larger spaces up to 200 m² (per unit)

OurAir SQ 2500 is a **standalone air cleaning system** that can cope with the demands of a bar, disco or club environment. With a maximum air flow rate of 2,500 m³/h, OurAir SQ 2500 is suitable for use in large spaces. **Multiple units can also be placed across a space for extra large areas.** OurAir SQ 2500 is so effective it can even be used in semi-open spaces.

OurAir TK 850

For smaller spaces up to 70 m² (per unit)

OurAir TK 850 is a **portable air cleaner** with the flexibility that bars, discos and clubs need. Wheel it from room to room or store it away easily. OurAir TK 850 can clean a space quickly and efficiently with a maximum air flow rate of 950 m³/h. Best of all, it packs this high performance into a **space-saving design just 75 cm tall.**

OurAir SQ 2500	Technical Data	OurAir TK 850
1,004 x 0,523 x 1,051 m	Dimensions (L x W x H)	0,51 x 0,63 x 0,77 m

No retrofit, no fuss

Just a healthier, virus-free space

A long-term solution

Guests will still be concerned about their health long after COVID-19. **Both OurAir SQ 2500 and OurAir TK 850 provide effective defence against air pollution as well as viruses, bacteria and other micro-organisms.**

Most bars and clubs are set-up to create a comfortable, pleasant environment for their guests. That means the air conditioning system (if one is present at all) is targeted at cooling or warming the space, not protecting occupants from viruses and other harmful contaminants.

OurAir SQ 2500 and TK 850 from MANN+HUMMEL are all-in-one units that enable building owners to turn any indoor space into a virus-free indoor environment.*

No retrofit or building works are required. **Simply plug 'n play and create a healthier space for your guests and team.**

*H14 HEPA filters reliably capture >99.995% of viruses and bacteria.

A NEW REALITY FOR YOUR BUSINESS

People were concerned about the air they were breathing even before a global pandemic hit. Now, it's at the forefront of their minds and will guide their actions for years to come – especially at winter time.

Customers will no longer just judge your bar, disco or club on things like music, prices and ambience. **They will factor in how seriously you take their health too.**

You've carefully rearranged the furniture, installed hand sanitizing stations and posted updates to your social media accounts.

Make the difference and provide your employees and guests with peace of mind by installing OurAir SQ 2500 or OurAir TK 850 for cleaner, virus-free air.

A filtration leader For almost 80 years

For more than three-quarters of a century MANN+HUMMEL has been finding new ways to separate the useful from the harmful.

Today, our 22,000-strong team of filter experts – more than 1,000 of which make up our R&D department – work together to make our world a cleaner place.

26 filters roll off our production lines every second of every day.

So you can trust us to protect your guests, your team and your business.
