

Anti-COVID Air
Purification Systems
Reducing the risk
of infection in gyms
and leisure facilities

Keep your business going

Anti-viral filtration for your gym

 Individually-tested H14 HEPA filters¹ capture more than **99.995%** of viruses, bacteria & other micro-organisms 

High performance air flow rate for efficient air exchange

Low power consumption through optimized system and filter media design

Quiet operation, and discreet, neutral design for unobtrusive protection

Optional **UV-C stage** and **activated carbon prefilter** for odors, NO₂ and VOCs

The experts for your unique challenge

From HEPA upgrades to your HVAC system, air purification systems or real-time indoor air monitoring devices, MANN+HUMMEL is your development partner of choice for healthy air quality.

of respondents to a U.S. poll didn't feel comfortable going to the gym because of concerns about COVID-19.²

of surveyed members said they would never return to the gym after the COVID-19 pandemic.²

Customer fears over COVID-19 can be a genuine threat to your business. Or, they can be a **real opportunity**.

Meet the new customer demand and offer virus-free air in your building.

Lots of people breathing hard in an enclosed environment make gyms and leisure facilities an ideal place for COVID-19 to spread. But no business wants to be in the headlines as the center of an outbreak - the bad publicity will remain long after any shutdown has been lifted. So much of your contamination control efforts will be about limiting risk, but there are opportunities too.

With customers focused so sharply on COVID-19, the businesses that best put their minds at rest will stand out in this new competitive

landscape. Achieving this means going beyond the obvious measures of contaminant control, like enhancing cleaning protocols, PPE, and one-way traffic flows.

Demonstrate that you care about customer health by reducing the risk of COVID-19 circulation within your indoor environment. An effective air cleaning system will not only show you care for your customers, but will protect your employees and ultimately reduce the risk to your business.

OurAir SQ 2500 & TK 850

Anti-viral purified air, anywhere

OurAir SQ 2500

For larger spaces up to 200 m² (per unit)

OurAir SQ 2500 is a **standalone air cleaning system** that can cope with the demands of a leisure environment. With a maximum air flow rate of 2,500 m³/h, OurAir SQ 2500 is suitable for use in large spaces. **Multiple units can also be placed across a space for extra large areas.** OurAir SQ 2500 is so effective it can even be used in semi-open spaces.

OurAir TK 850

For smaller spaces up to 70 m² (per unit)

OurAir TK 850 is a **portable air cleaner** with the flexibility that gyms and leisure facilities need. Wheel it from room to room or store it away easily. OurAir TK 850 can clean a space quickly and efficiently with a maximum air flow rate of 950 m³/h. Best of all, it packs this high performance into a **space-saving design just 75 cm tall.**

OurAir SQ 2500	Technical Data	OurAir TK 850
1,004 x 0,523 x 1,051 m	Dimensions (L x W x H)	0,51 x 0,63 x 0,77 m

No retrofit, no fuss

Just a healthier, virus-free space

A long-term solution

Customers will still be concerned about their health long after COVID-19. **Both OurAir SQ 2500 and OurAir TK 850 provide effective defence against air pollution as well as viruses, bacteria and other micro-organisms.**

Most leisure facilities are set-up to create a comfortable, pleasant environment for their customers. That means the air conditioning system (if one is present at all) is targeted at cooling or warming the space, not protecting occupants from viruses and other harmful contaminants.

OurAir SQ 2500 and TK 850 from MANN+HUMMEL are all-in-one units that enable building owners to turn any indoor space into a virus-free indoor environment.*

No retrofit or building works are required. **Simply plug 'n play and create a healthier space for your customers and team.**

*H14 HEPA filters reliably capture >99.995% of viruses and bacteria.

You've trained team members,
installed hand sanitizing stations
and set up one-way routes
around your leisure facility.

**Make the difference and
provide your employees and
customers with peace of mind
by installing OurAir SQ 2500
or OurAir TK 850 for cleaner,
virus-free air.**

A NEW REALITY FOR YOUR BUSINESS

People were concerned about the air they were breathing even before a global pandemic hit. Now, it's at the forefront of their minds and will guide their actions for years to come.

Customers will no longer just judge your gym on things like equipment, prices and location.

They will factor in how seriously you take their health too.

A filtration leader For almost 80 years

For more than three-quarters of a century MANN+HUMMEL has been finding new ways to separate the useful from the harmful.

Today, our 22,000-strong team of filter experts – more than 1,000 of which make up our R&D department – work together to make our world a cleaner place.

26 filters roll off our production lines every second of every day.

So you can trust us to protect your customers, your team and your business.
