A man and a woman are walking through a large warehouse or retail store, smiling and looking at each other. The man has his arm around the woman's shoulder. They are both carrying white shopping bags. In the background, there are several large, modern air purifiers with green accents. The scene is brightly lit with overhead lights.

Anti-COVID Air
Purification Systems
Reducing the risk
of infection in retail

Keep your business going

Anti-viral filtration for your store

Individually-tested H14 HEPA filters¹ capture more than **99.995%** of viruses, bacteria & other micro-organisms

High performance air flow rate for efficient air exchange

Low power consumption through optimized system and filter media design

Quiet operation, and discreet, neutral design for unobtrusive protection

Optional **UV-C stage** and **activated carbon prefilter** for odors, NO₂ and VOCs

The experts for your unique challenge

From HEPA upgrades to your HVAC system, air purification systems or real-time indoor air monitoring devices, MANN+HUMMEL is your development partner of choice for healthy air quality.

of shoppers felt comfortable visiting a non-essential retailer.²

of consumers avoided shopping in-store because of concerns about catching COVID-19.³

Customer fears over COVID-19 can be a genuine threat to your business. Or, they can be a **real opportunity**.

Meet the new customer demand and offer virus-free air in your stores.

A visit to the supermarket is a part of everyday life. Somewhere customers expect a safe and healthy environment as a given. But the outbreak of COVID-19 has changed this – possibly forever. What was once seen as an inherently safe activity now raises fears of catching a potentially-deadly viral infection. And while online shopping has picked up much of the stay-at-home demand, there are still many customers that rely on shopping in store.

Make the difference and provide your customers with virus-free, healthy air during their visit.

Our air purification systems will not only create a safer environment for your customers and staff, but can deliver a genuine business opportunity for your organization.

Learn more about our anti-COVID air purification systems

OurAir SQ 2500 & TK 850

Anti-viral purified air, anywhere

OurAir SQ 2500

For larger spaces up to 200 m² (per unit)

OurAir SQ 2500 is a **standalone air cleaning system** that can cope with the demands of a retail environment. With a maximum air flow rate of 2,500 m³/h, OurAir SQ 2500 is suitable for use in large spaces. **Multiple units can also be placed across a space for extra large areas.** OurAir SQ 2500 is so effective it can even be used in semi-open spaces.

OurAir TK 850

For smaller spaces up to 70 m² (per unit)

OurAir TK 850 is a **portable air cleaner** with the flexibility that retail stores need. Wheel it from room to room or store it away easily. OurAir TK 850 can clean a space quickly and efficiently with a maximum air flow rate of 950 m³/h. Best of all, it packs this high performance into a **space-saving design just 75 cm tall.**

OurAir SQ 2500	Technical Data	OurAir TK 850
1,004 x 0.523 x 1,051 m	Dimensions (L x W x H)	0.51 x 0.63 x 0.77 m
150 kg	Weight	60 kg
250 - 2,500 m ³ /h	Air Flow Rate	100 - 950 m ³ /h
- 5 times/hour in rooms up to 200 m ² ; - 6 times/hour in rooms up to 170 m ²	Air Exchange Rate	- 5 times/hour in rooms up to 70 m ² ; - 6 times/hour in rooms up to 60 m ²

No retrofit, no fuss

Just a healthier, virus-free space

A long-term solution

Customers will still be concerned about their health long after COVID-19. **Both OurAir SQ 2500 and OurAir TK 850 provide effective defence against air pollution as well as viruses, bacteria and other micro-organisms.**

Most retail facilities are set-up to create a comfortable, pleasant environment for their customers. That means the air conditioning system (if one is present at all) is targeted at cooling or warming the space, not protecting occupants from viruses and other harmful contaminants.

OurAir SQ 2500 and TK 850 from MANN+HUMMEL are all-in-one units that enable building owners to turn any indoor space into a virus-free indoor environment.*

No retrofit or building works are required. **Simply plug 'n play and create a healthier space for your customers and team.**

*H14 HEPA filters reliably capture >99.995% of viruses and bacteria.

You've trained team members,
installed hand sanitizing
stations and set up one-way
routes around your store.

**Make the difference and
provide your employees and
customers with peace of mind
by installing OurAir SQ 2500
or OurAir TK 850 for cleaner,
virus-free air.**

A NEW REALITY FOR YOUR BUSINESS

People were concerned about the air they were breathing even before a global pandemic hit. Now, it's at the forefront of their minds and will guide their actions for years to come.

Customers will no longer just judge your store on things like parking, prices and product selection.

They will factor in how seriously you take their health too.

A filtration leader For almost 80 years

For more than three-quarters of a century MANN+HUMMEL has been finding new ways to separate the useful from the harmful.

Today, our 22,000-strong team of filter experts – more than 1,000 of which make up our R&D department – work together to make our world a cleaner place.

26 filters roll off our production lines every second of every day.

So you can trust us to protect your customers, your team and your business.
